

 **BORA**

BORA X Pure

BORA X Pure highlights

Minimalist design

While the controls are almost invisible in standby mode, during operation they are impressively alluring – thanks to intelligent, blue-white lighting.

Oversized surface induction cooking zones

Large surface induction cooking zones ensure your pans are heated up evenly.

Simple cleaning

All parts that come into contact with cooking vapours can be easily removed through the inlet opening and put in your dishwasher for fuss-free cleaning.

Minimum volume

Thanks to the quiet fan, the extractor remains barely audible even at high power levels.

Variable heat retention function

You can choose between three heat retention levels, allowing you to keep your food warm at an optimum, constant temperature without any danger of burning it.

BORA X Pure highlights

Intuitive sControl operating panel

All of the slider's functions are at your fingertips by simply swiping up or down or tapping the surface directly with your finger.

Integrated drip tray

If anything is spilt during cooking, the integrated drip tray safely catches both solids and liquids.

eSwap

In recirculation mode, odours are neutralised by an activated charcoal filter. You can change the filter through the air inlet aperture.

Maximum storage space

At under 200 mm, the low installation height gives you maximum storage space for pots and other kitchen utensils in the cupboard below.

Automatic extractor control

The extractor power level automatically adjusts itself according to current cooking conditions, so there's no need for manual adjustment.

Pure perfection.

A stylish statement for the most important room in the house: the BORA X Pure. This high-end cooktop extractor brings together pioneering design with tried and trusted technology, raising the bar for any modern kitchen.

BORA warranty

We trust in our products and strongly believe in their quality! That's why we're extending the two-year manufacturer's warranty on your BORA system for an extra year.

For more information, please read the current terms and conditions: mybora.com/warranty2plus1

Extend your warranty

Enter the registration code for your BORA appliance to extend the warranty by a year free of charge.

Just visit our website: mybora.com/registration

Practical down to the last detail

Fine technical details that make all the difference: our unique eSwap system allows you to change the filter from the top through the air inlet aperture – without having to remove drawers or plinth panels.

Experience BORA live

Grab your apron and let's go! You and a few fellow foodies can learn to cook several courses with our BORA chef, and you'll see first-hand how BORA can bring greater freedom and enjoyment to a modern kitchen.
